

Manas Nandanwar

Tech Enthusiast | Developer | Innovator

Email: nandanwarmanas@gmail.com | Phone: 7219229644

LinkedIn: [Manas Nandanwar](#) | GitHub: [M29766 - Overview](#) | Location: Nagpur , Maharashtra, India

Professional Summary

Passionate and detail-oriented technology enthusiast with a strong foundation in software development, problem-solving, and emerging technologies. Skilled in designing and implementing innovative solutions that bridge creativity and functionality. Dedicated to continuous learning and contributing to impactful projects in the tech ecosystem.

Education

Bachelor of Technology (B.Tech)

Ramdeobaba University , Nagpur, Maharashtra, India

2028

- Major : Electronic and Computer Science
 - Relevant Coursework: Data Structures, Algorithms, Web Development, Machine Learning, Database Management Systems
-

Technical Skills

- **Programming Languages:** Python, Java, C++, JavaScript
 - **Web Technologies:** HTML, CSS, React.js, Node.js
 - **Databases:** MySQL
 - **Tools & Platforms:** GitHub, VS Code
-

Projects

1. Mood-Based Playlist Switcher :

- Created an innovative system using Arduino and ThingSpeak to detect user mood and automatically switch Spotify playlists accordingly.

2. Arduino-Based Mesh Solver Bot :

- Developed a robot that integrates an Arduino Nano with TB6612 motor drivers, IR sensor arrays, DC motors, and LEDs to solve mesh-related problems.

3. Inventory Manager System :

- Designed and developed a desktop-based inventory tracking application using Java Swing for the GUI and MySQL for backend data storage.
- Implemented full CRUD capabilities (Create, Read, Update, Delete) to manage product records, allowing users to add new items, update stock levels, and remove obsolete products.

4. Employee Attendance Tracker :

- Developed a console-based application to automate daily employee check-in and check-out processes using Java and MySQL.
 - Implemented logic to capture real-time attendance data, utilizing `java.time.LocalDate` and `LocalTime` for precise timestamping of work hours.
 - Engineered SQL constraints and exception handling (`SQLIntegrityConstraintViolationException`) to prevent duplicate daily entries, ensuring data integrity.
 - Designed a modular backend with a dedicated Database Connection class, optimizing code reusability and maintenance.
-

Experience

Intern – Software Development

Uptricks Services Pvt. Ltd., Pune, Maharashtra

Duration: 2 months

- Assisted in developing and testing web applications.
 - Collaborated with cross-functional teams to enhance system performance.
 - Gained hands-on experience in agile development and version control.
-

Certifications

- Cisco - Introduction to IoT
 - Cisco - Networking Basics
 - Deloitte Australia - Technology Job Simulation
 - Google Cybersecurity Specialization
 - Fundamentals of Generative AI for Beginners - by aws
-

Interests

Artificial Intelligence, Open Source Development, Exploring emerging design technologies , web developing .
